

SUMMIT

ONE VANDERBILT

New York's most transformational experience is SUMMIT One Vanderbilt.

SUMMIT will change the way guests see cities, the environment, and themselves through a collection of immersive, multi-sensory experiences. Designed with the intention of transcending everyday existence, SUMMIT offers an entirely new perspective for the New York cultural scene, set against rare views of Manhattan and the world beyond.

Air, a story-driven, immersive experience designed by Kenzo Digital mixes transparency & reflectivity to create the illusion of boundless space.

Transparent glass enclosed skyboxes extending from SUMMIT offer sweeping vantage points of New York, over 1,000 ft (300 m) above Madison Ave.

Breathtaking views are accented with a curated menu of light fare and cocktails, courtesy of Danny Meyer's Union Square Events' at Après.

The most daring go even higher with ASCENT, a sensory defying all-glass elevator reaching SUMMIT's highest elevation, 1,210 ft (368 m) above Midtown.

Immerse yourself in New York's most thrilling experience!
