

## Mighty Five®

Utah's Mighty Five® national parks are some of the most magnificent national parks anywhere. These travel regions beckon visitors to immerse themselves further in nearby state parks, national monuments, and small towns as well.

## Greatest Snow on Earth®

Aside from having The Greatest Snow on Earth®, what sets Utah apart from other skiing locations is easy access. Of Utah's 15 resorts, 10 are within an hour of Salt Lake City International Airport and two ski resorts are within a short distance to our Southern Utah classics.

## Film Tourism

Utah's unique landscapes — from the salt desert to the Rockies' peaks to red rocks of all shapes — has been a popular backdrop for filmmakers since the era of Hollywood's beloved Westerns. On screen, Utah has slipped into countless roles, sometimes as different states or even different planets.

## Scenic Drives

Utah's 28 national scenic byways cover hundreds of kilometers of impressive travel experiences filled with trailheads, scenic overlooks, museums, local flavors, and vibrant communities where tourists can stop for the night or hook up their RV.

## Dark Skies

Utah boasts the highest concentration of certified International Dark Sky Parks in the world. Whether you are experiencing the world of dark skies for the first time or want a full astro tourism itinerary, Utah's opportunities are transformational. Astro tourism provides unique experiences off the beaten path and doesn't depend on seasonality as visitors can experience the wonder of the skies throughout the year.

Centrally located in the American West, Utah is an excellent gateway to exploring the region. Utah is easily accessible to the world via Salt Lake City International Airport along with Las Vegas' Harry Reid International Airport for slightly closer access to Southern Utah sites.

LIFE  
**UTAH**
